LEAD WELL - WORK WELL - LIVE WELL

Interwoven through the BOLD Center initiatives are four core values that are guiding principles for Douglass programs focused on career, leadership, and personal development. These include: 1) exploration of identity and self-knowledge; 2) affirmative environments to lead, live, and work well; 3) promotion of confidence as a method for achieving ones’ aspirations; and 4) cultivation of professional and life skills.

As you engage in the BOLD Leadership Pathway, you will gain critical professional and life competencies to deepen and grow your leadership skills. **Being a BOLD leader** requires your attendance in at least four events and participation in a Douglass student organization. In addition to the four required events of your choice, the mandatory events for the fall 2016 semester, include the Douglass Pine Leadership Retreat and the end of the semester Leadership Launchpad.

---
